EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-20 and 24.

The cancellation of the claim has been made to put the case ready to issue since claims 1-20 and 24 directed to the invention/species non-elected without traverse noted in paper dated 06/20/05.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Fouts, Jr. et al (US 4,545,926).

The following is an examiner's statement of reasons for allowance: allowance of claims 21-23 and 25 is indicated because as noted, while the patent to Fouts, Jr. et al discloses a conductive polymer composition exhibits a volume resistivity of less than 10^{-3} ohm-cm at 25 °C, the prior art of record does not show or fairly suggest the claims as amended directed to such a combination having the particular resistivity at 25 °C and the transverse conductive element having metal recited in the manner according to claim 21, such transverse conductive element arrangement as recited in claim 23, the particular resistance and dimension as recited in claim 22 and the apertures defined in the manner recited in claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-Thu from 6:00AM to 6:30PM.
